

## About US

Mercury Pharmacy is locally owned and has been providing quality pharmacy services across Washington since 1996. It is our goal to help you with any pharmacy related needs and ensure that you and your team have a program that completely takes the guess work out of the medication pass process.

## Senior Living Communities

We are dedicated to exceptional services that meet the needs of Assisted Living, Skilled Nursing, Adult Family Home, and Group Home residents. We offer specialized compliance packaging for medications, personal assistance, simplified billing, and faster delivery for all our clients in the Pacific Northwest.

**MERCURY**  
PHARMACY SERVICES

**Solutions Simplified**

*"We made the decision to partner with Mercury because of the relationship. They make us feel special by listening to our preferences. They are small enough to customize and personalize, but big enough to meet all of our residents' needs."*

**Carol Foltz**

Administrator, Arbor Village Assisted Living

*"Mercury Pharmacy is first and foremost reliable with very good customer service. I want to tell others about their excellent communication and how we as a facility can depend on their ability to accommodate our needs. When those last minute emergencies, that we all have, arise I can always count on their prompt delivery."*

**Maura Vince-Cruz, RN**

Director, Park Place Assisted Living

## Our Team

Steve Boulanger

### *Steve Boulanger Owner*

Since 1998, Steve has owned Mercury and provided pharmacy services to Assisted Living and Skilled Nursing communities. A graduate of Washington State University, he is passionate about providing a high level of specialized care to every resident. In his down-time, he enjoys golfing, skiing, and travel.

Ed Mason

### *Ed Mason Director of Technology*

Ed has been involved in Long Term Care technology for over 20 years. Specializing in numerous different eMAR platforms, he has become a valuable resource for both Mercury and our customers. As part of the marketing team his role is to show current and future customers how Mercury supported EHR platforms will benefit their bottom line. Ed enjoys cooking, reading, and has written several articles on LTC technology which can be found on LinkedIn.

Jordan Brown

### *Jordan Brown Business Development Manager*

Jordan has worked in the LTC space for the past eleven years as a consultant and establishes long lasting relationships with community CEOs, Administrators and Directors. He is very active in the Gig Harbor community where he lives with his wife and four kids. Over the last several years, he had the opportunity to coach baseball and basketball. The progress these teams have made both on and off the field/court has been very rewarding!
